

BALAJI RAJ VELUCHAMY, PMP

California, USA | +1(650) 450-8995 | balajiraj.veluchamy@gmail.com | [LinkedIn](#) | [GitHub](#) | [My Portfolio](#)

PROFESSIONAL SUMMARY

Technical **Program Manager** with 5+ years of experience delivering data-intensive, **cross-functional programs** across analytics and manufacturing environments. Proven ability to translate **complex requirements** into execution plans, drive **end-to-end program delivery**, and ensure data quality, reliability, and **performance measurement** at scale. Strong expertise in SQL, **KPI frameworks**, and telemetry-driven **decision-making**, enabling **actionable insights** and product improvements. Adept at **managing ambiguity**, aligning engineering and product **stakeholders**, and delivering measurable outcomes in **high-impact environments**.

SKILLS

- **Technical Program Management - Program Execution**, Roadmap & Milestone Planning, Dependency Management, Problem Solving, Risk Mitigation, Release Management, **Agile & Waterfall**, Critical Thinking, Customer Satisfaction.
- **Data Systems & Measurement** - SQL, Data Pipelines, Telemetry & **Event Tracking**, KPI Definition, Data Validation, Data Cleaning, Data Visualization, Process Optimization, Experimentation Analysis, **Reporting Frameworks**.
- **Analytics & Business Intelligence** - **Power BI**, Advanced Excel, Data Modeling, Forecasting, **Trend Analysis**, Root Cause Analysis, Documentation.
- **Cross-Functional Leadership** - Engineering & Product Collaboration, **Stakeholder Alignment**, Executive **Communication**, Conflict Resolution.
- **Tools & Technologies** - **SQL**, Power BI, Python, Advanced **Excel**, Tableau, ETL, Microsoft Project, Microsoft Office Suite.

WORK EXPERIENCE

AI Project Data Tutor – Data quality & Program support Sept 2024 - Present
xAI Sunnyvale, California

- Improved **data quality** to **91%** across large-scale datasets, ensuring reliability of AI model training and downstream measurement systems.
- Coordinated execution across **12 AI programs**, aligning data validation workflows, evaluation standards, and delivery milestones.
- Designed and implemented data tracking and reporting frameworks, increasing visibility into experiment performance, **feedbacks**, and KPIs.
- Conducted data validation and **anomaly detection**, improving accuracy and trust in data pipelines used by engineering teams.

Assistant Program Manager – Technical Program Delivery & Analytics Jan 2021 – Jul 2023
Saint-Gobain Glass India Pvt. Ltd. Tamil Nadu, India

- Coordinated **90+** cross-functional **projects**, managing planning, execution, and stakeholder coordination across operations and supply chain.
- Built KPI dashboards and reporting systems (Power BI, Excel), enabling real-time monitoring of **performance metrics** and program health.
- Reduced production **lead time by 33%** through root cause analysis, process redesign, and data-driven optimization initiatives.
- Designed and executed a warehouse optimization program, **reducing material movement by 40%** and achieving ₹8 lakh annual savings.
- Established **program governance** frameworks (SOPs, reporting cadence, risk tracking), improving execution consistency and compliance.
- Managed risk identification, dependency tracking, and **mitigation strategies**, ensuring timely delivery across multiple concurrent workstreams.
- Delivered **executive-level reporting** and insights, translating complex data into actionable recommendations for leadership.
- Achieved 3.5% operational cost reduction through **continuous improvement** and analytics-driven decision-making.
- Drove adoption of Lean and Kaizen practices, achieving **94% employee empowerment** in continuous improvement initiatives.

Technical Research Assistant – Data Analysis & Reporting Systems Jul 2019 – Dec 2020
Saint-Gobain Glass India Pvt. Ltd. Tamil Nadu, India

- Built data dashboards using Excel, with **98% data accuracy**, supporting performance monitoring and operational decision-making.
- Conducted process and data flow analysis using value stream mapping, **identifying inefficiencies** and recommending scalable improvements.
- Delivered executive-ready **insights and reports**, improving visibility into operational performance and strategic initiatives.
- Supported cross-functional teams with data **collection, transformation**, and analysis, enabling better forecasting and planning.

PROJECT EXPERIENCE

Excess Inventory Optimization – Supply Chain Analytics Jan 2024 – May 2024
Teradyne Inc. Tempe, Arizona

- Built **demand optimization** models using Python & Power BI, improving excess **inventory risk visibility** by 75%. Enabled data-driven procurement decisions, reducing excess inventory actions, **reorganized procurement approval levels**, and improving planning accuracy.

Defect Reduction Using Manufacturing Data – Quality Analytics Program Apr 2022 – Dec 2022
Saint-Gobain Glass India Pvt. Ltd. Tamil Nadu, India

- Reduced defects by 55% through data-driven **root cause analysis** and **corrective action** frameworks using Python and Power BI analysis over equipment and sensor data. Standardized **quality measurement** systems, ensuring sustained improvements and process reliability within Agile workflow.

Consumable Optimization & Layout Redesign – Process Improvement Program Apr 2022 – Jul 2022
Saint-Gobain Glass India Pvt. Ltd. Tamil Nadu, India

- Reduced material **handling inefficiencies** by 40% and consumable costs by 50% annually, through **Lean Six Sigma** methodology. Improved operational throughput through data-driven process redesign, retraining **employee culture**, and cross-functional execution.

EDUCATION

Master of Science, **Business Analytics** (Summa Cum Laude) Arizona State University Aug 2023 – May 2024
Bachelor of Engineering, **Automobile Engineering** (Cum Laude) Anna University Jun 2015 - May 2019
