Milpitas, California, USA (Open to nationwide relocation)

Authorized to work in the U.S. under STEM OPT EAD | H-1B petition filed (Open to transfer)

Education & Certificates

- M.S. **Business Analytics** | Arizona State University | Tempe, AZ Graduated - May 2024
- B.E. **Automobile Engineering** | Anna University | India Graduated – Apr 2019
- **Project Management Professional (PMP)** | Project Management Institute Jan 2026
- Microsoft Certified: Power BI **Data Analyst** Associate Dec 2025
- **Six Sigma Yellow Belt** | Saint-Gobain Glass Business Jul 2022

Professional Experience

Associate Project Manager at Technova Technologies Inc., Remote

Jan 2026 - Current

- Built automated **CRM dashboards** in Palantir Foundry by integrating operational data sources, improving reporting efficiency by 35% and enabling faster project decisions for leadership teams.
- Applied **Earned Value Management (EVM)** to monitor resource allocation and schedule performance, reducing **schedule variance** by 22% through proactive risk tracking and project status updates.
- Developed a vendor performance analytics framework using **Power BI and Python** by standardizing vendor data and building **KPI dashboards**, supporting cost optimization and supplier evaluation decisions.
- Gathered and documented business requirements from **cross-functional stakeholders**, translated them into **project deliverables**, and coordinated execution from planning through implementation.

AI Project Data Tutor / Quality Analyst at xAI – Remote

Sept 2024 - Nov 2025

- Coordinated **project execution** across twelve AI programs by managing timelines, quality review cycles, stakeholder communication, and delivery milestones to maintain **program performance** standards.
- Applied **root cause analysis** and structured data validation workflows to improve multimodal **dataset quality by 91%**, increasing AI model readiness and reducing rework across data pipelines.
- Partnered with AI researchers and **operations teams** by facilitating cross-functional issue resolution and stakeholder updates, improving collaboration and reducing blockers across active projects.
- Leveraged **Generative AI tools and prompt engineering** to automate reporting workflows, reducing manual effort and accelerating delivery of program status reports to stakeholders.

Assistant Program Manager at Saint-Gobain Glass Business, India

Jan 2021 - Jul 2023

- Managed over **90 cross-functional operational improvement projects** by coordinating schedules, resources, and stakeholder priorities across supply chain, manufacturing, and business operations teams.
- Developed Power BI dashboards by integrating operational KPI data and **automating reporting processes**, improving leadership visibility into project performance and business metrics.

- Led root cause analysis and Lean Six Sigma **problem-solving initiatives** across production workflows, reducing machine lead time by 33% through data-driven process redesign and corrective action plans.
- Implemented **cost reduction strategies** through warehouse optimization and inventory analysis, delivering ₹8 lakh in annual savings and improving overall resource utilization across operations.
- Established standardized SOPs and **governance documentation** by working with cross-functional teams, improving execution consistency, compliance, and knowledge transfer across departments.
- Presented **project status updates**, operational metrics, and business performance insights to senior leadership, supporting strategic planning and **continuous improvement** prioritization decisions.

Technical Project Assistant at Saint-Gobain Glass Business, India

Jul 2019 - Dec 2020

- Developed Excel and Power BI KPI dashboards by collecting and validating **operational data to 98% accuracy**, enabling reliable performance monitoring and trend analysis for leadership reporting.
- Conducted **value stream mapping** and root cause analysis across manufacturing workflows, identifying process inefficiencies and recommending improvements that supported continuous improvement initiatives.
- Prepared **executive reports, KPI summaries, and business presentations** by synthesizing operational data findings, supporting engineering and operations leadership in monitoring project performance.

Project Experience

Excess Inventory Optimization at Teradyne, Tempe

Jan 2024 - May 2024

- Built **demand forecasting models** using SQL, Python, and Power BI by applying predictive analytics and data modelling to historical inventory data, improving **supply chain visibility by 75%**.
- Applied Agile planning, trend analysis, and root cause investigation techniques to identify inventory risks and recommend **optimization strategies** supporting procurement and supply chain decisions.

Consumable Optimization & Layout Redesign at Saint-Gobain Glass Business, India

Apr 2022 - Jul 2022

- Led a Lean Six Sigma **process improvement initiative** by conducting value stream mapping and workflow redesign, reducing material movement inefficiencies by 40% across the production floor.
- Achieved 50% annual **consumable cost reduction** by implementing standardized operating procedures and continuous improvement practices, delivering measurable savings through data-driven process changes.

Technical Skills

- **Project Management:** PMO, Portfolio Management, Project Controls, Scope Management, Schedule Planning, Resource Planning, Change & Risk Management, RAID Logs, Critical Path Method, Microsoft Project, Jira.
- **Business Analysis:** Process Optimization, Requirements Elicitation, Functional Requirements, Workflow & Gap Analysis, Process Improvement, UAT Support, Decision Support, Standardization, Governance, Documentation.
- **Business Intelligence:** Tableau, Data Visualization, Data Modeling, Forecasting, Predictive Analytics, Dashboard Automation, ETL Concepts, Data Storytelling, Statistical Analysis, Performance Metrics, Microsoft Excel, AI Tools.
- **Leadership:** Executive Communication, Strategic Planning, Vendor Management, Cross-functional Leadership, Conflict Resolution, Meeting Facilitation, Organizational Influence, Operational Excellence, Problem Solving, Decision Making.
